Total sales of stocks to-day were 160,450 shares including: American Sugar, 8,600 American Tobacco, 6,600; Atchison, 7,200; Burlington, 11,400; Chicago Gas, 5,400; Distilling, 21,400; Missouri Pacific, 7,800; New Jersey Central, 3,600; New York, Susquehanna & Western, 3,200; New York, Susquehanna & Western pref., 4,400; Reading, 24,000; Rock Island, 8,500; St. Paul, 8,800.

Although the volume of business on the Stock Exchange yesterday does not show a very heavy increase, compared with the trading of the past few days, the dealings were more animated and the fluctuations take a wider range. A selling movement was early inaugurated in Tobacco on a renewal of the reports of opposition brewing among the independent manufacturers against the trust. A break of 14 per cent. was effected before the decline was checked and the general list had yielded slightly. On the announcement that the Supreme Court had denied the application to restrain the reorganization committee of the Distilling and Cattle Feeding Company from purchasing the property of the company at to-day's sale, the trust stock came into good buying and rose 14 per cent. The rest of the market was favorably influenced but until midday the speculation nced, but until midday the speculation was very narrow. The only change of me ment was a decline of 1 per cent, and rally of 14 in Missouri Pacific, About noon there was buying of the coal stocks, acanied by reports that an agreement been reached by the coal carrying panies by which an advance in prices ould be maintained. Although no confirmed to accept it as true and a general eclation in values was recorded, in which the favorable crop advances were also a factor. Most prominent in the improvement were New Jersey Central, Dela-ware & Hudson, Lackawanna Rock Island, Burlington, New England and Lake Erie & Western. Trading continued strong ern. Trading continued strong out the afternoon until shortly before the close when under the influence of engagements of gold for shipment to Europe in greater amount than was expected there were realizing sales which caused tractional reactions and gave a tone of nal reactions and gave a tone of sion to the final dealings. The closing prices, however, are in the main higher than Monday night's figures, the chief gains being New Jersey Central, 2%; New England, 1%; Erie Telegraph, 1½, and Delaware & Hudson, and Distilling, 1½. The Third-avenue Railroad Company declared a guarterly dividend of \$50 per phones. rterly dividend of \$2.50 per share, paya-Aug. 28, and the stock sold at 190

LOCAL GRAIN AND PRODUCE.

Of Week on Commission Row-Prices Low and Trade Dull. It is blue times on Commission row. Receipts are liberal, demand slow and prices at the bottom notch. The oldest commission

men say it is seldom as dull as this week. Potatoes sold yesterday at 40 cents, apples at any price offered and even cabbage broke 25 cents a barrel. The poultry, egg and butter markets are sluggish. On the wholesale streets grocers report trade quiet. Druggists say only a fair business is in progress. Hardware men say it is not as

Typhoid Fever.

To the Editor of the Indianapolis Journal: As the city is having an unusual number of cases of typhoid fever, a few remarks on the subject may be of interest. Of late years it has been noticed by scientists that most epidemic diseases recur periodically, and for some time no explanation likely to solve the problem was forthcoming; but now it has been clearly demonstrated that the periodicity occurs in large communities and also that it corresponds to the time when large numbers of people are susceptible to the particular disease raging. The months of August, September, October and November have been specially noted as the likeliest time for the outbreak of typhoid fever. We can readily understand the reason for this, when we consider how, for months, all kinds of rubbish have been fermenting in drain pipes, which is disturbed and the gases forced into the surrounding houses by the heavy rains which we usually have in the fall. Then, too, it is well known that about half of the water sent into the mains from the reservoirs forces its way into the ground surrounding the pipes, and so becomes contaminated by leakage from crooked soil pipes, etc. Ty-phoid fever is the one most propagated through poisoned drinking water. The com-mencement is generally slow and insidious. The patient feels depressed and weary, more and more so every day. He has head-ache, giddiness and pains in the back and limbs. He loses appetite; he may vomit or have diarrhoea; or, if he takes an aperient, under the idea that it will set him right again, his bowels may remain relaxed. As the fever develops, the aspect of the patient is that of languor and weariness. The face is usually pale, with a small pink blush on one or both cheeks, especially towards the end of the day. More or less bleeding of the nose frequently ushers in this form of fever. As the case progresses, the diarrhoea, temperature and mental troubles become exaggerated, until a stage is

reached when the lever falls suddenly and convalescence proceeds slowly. Is typhoid fever infectious? Yes, but not in the same manner as most of the other fevers are. You cannot catch this fever through the patient's breath, or the exhalations from the body, but you may breathe the germs from the soiled linen, etc., especially if it is dry and decomposing. The usual way of becoming infected, however, is through poisoned water, milk or sewer gas. The lessons to be learned from the First-Boil the whole of your drinking

water and milk; filtration is well enough in its way, but absolute immunity is only preserved by boiling the water. Second-Have your drains and soil pipes examined by those who are familiar their construction Third-If any one in the house becomes infected, either remove him to the hospital. where the best of care will be taken of him, or seclude the patient in a room at the top of the house, and forbid the ap-proach of any other than the nurse. Fourth-Empty the room of all that is not required, even to the carpets and pictures then soak a sheet in carbolic acid lotton

consisting of one part of the acid to about forty parts of water, and hang it outside the door opening into the infected room.

J. J. MANNERS, M. D. Magnetic Springs, Cartersburg, Aug. 12.

An Old Man's Freak.

Philadelphia Record. Magistrate Harrison is laughing heartily over a case that was adjusted before him the other day. A wagon loaded with mineral water jugs backed up to the curb-stone in front of a bottling establishment last week and the driver proceeded to unload his wagon by tossing the jugs, one at a time, to a colored youth who stood on the opposite side of the curbstone ready to catch all that came his way. When things were moving nicely an old man who occupies a house next door stepped out of his own door, threw a brick as straight as a bullet and broke one of the jugs while it was in transit from the driver to the colored boy. He darted back into his own domicile before the driver could recover himself enough to make a protest.

A few minutes later another jug was smashed, and again the old man disappeared with a merry laugh. This was kept up until about a dozen jugs had been smashed, when the angry proprietor stopped the fun by causing the old fellow's arrest on a charge of malicious mis-chief. When Judge Harrison read the charge to him the old man laughed until the tears rolled down his cheeks and then admitted his guilt. In making an explanation he told the astonished magistrate that he was able and willing to pay for all the damage he had done and said: "I saw those jugs flying and I knew in my own heart that I would have thrown bricks at them when I was a boy sixty years ago. I just wanted to see how it would feel again, and I couldn't help myself." The explanation was satisfactory, and after settling, the old fellow went away still laughing heartily.

An Exception.

CASH GRAIN HIGHER

CHICAGO FUTURES IN BOTH WHEAT AND CORN ADVANCED.

Good Foreign Demand Strengthened the Domestic Markets-Provisions on the Decline.

CHICAGO, Aug. 13.-The speculators in wheat and corn abrogated their function as makers of prices, leaving it to the handlers of cash grain to-day. Being left to the latter, the price of wheat was advanced lc per bushel and September corn was raised 11/2c per bushel. Oats recovered a little and for all three grains the demand for shipment was excellent. Vessel room was taken for 325,000 bushels of wheat, 258,000 bushels of corn and 65,000 bushels of oats; 40,000 bushels of the wheat going to Toledo and 40,000 bushels to Detroit.

Initial trading in wheat was at 1/20%c decline, but gradually sold up 1%c, eased off 40%c, ruled steady and closed as stated. The early weakness was due altogether to the foreign news, Liverpool being off 16d for spot and down 401d for futures. The weakness displayed in the Northwest was also a factor for the moment, as was the better weather. Northwestern arrivals were larger than the same date a year back. At the decline there was pretty good buying, New York taking on considerable and local shorts also purchased with considerable freedom. Reports from New York stated that foreigners were buying there. Second cables were reported as coming steadler, and this imparted some strength to the market, as did the very fair demand for the cash article here, sales aggregating 250,000 bushels being reported, part of which was for direct export. Receipts were 120 cars with 10 cars contract, against 842 cars a year ago, when 630 cars graded Contract stocks decreased last week 198,

000 bushels and are now 14,557,000 bushels of which 13,184,000 bushels is winter and the rest, 1,373,000 bushels, spring wheat. Showers and cooler conditions were indicated for the Northwest, where fair weather with higher temperatures have lately prevailed. It was reported as raining in France and was among the minor bull items. Exports of wheat and flour were some larger at 320,000 bushels, of which shipments were reported 5,686,000 bushels, of which Russia contributed 2,160,000 bushels, sundry ports, 646,000; America, 1,550,000 bushels; India, 1,336,ww bushels and Argen-Corn ruled active, the range for the day

being 1@2\%c, the close showing \%@1\%c advance. Initial trading was at \%@\%c loss and sold off a fraction, but soon rallied \%@1\%c, declined \%c, advanced 1@1\%c, ruled steady and closed as stated. The early weakness was due in a measure to favorable weather, but the earlier offerings of all deliveries were quickly absorbed, the house most prominent on the selling side house most prominent on the selling side yesterday being even more active on the buying side to-day and was one of the features. The weather reports of Iowa and Indiana had a little drought talk in them and the market was possibly affected some by the same. The market acted a little as if oversold. The cash situation was strong and was a factor in strengthenwas strong and was a factor in strengthening values. No. 2 was held it over September and No. 2 yellow 1½@1½c premium. New York reported all the offerings to the other side accepted this morning. Exports were liberal at 229,000 bushels, New York sending out 173,000 bushels, Boston 26,000 bushels, Boston 26,000 bushels, Boston bushels and Baltimore Withdrawals from store here were 237,837 bushels, and charters were made for 258,000 bushels. Cables were weak, spot being down 1d and futures off 11/2d. Domestic markets all ruled firmer. Contract stocks decreased 479,917 bushels last week, and are now 1,108,315 bushels, against 1,329,846 bushels for the corresponding date a year back. Receipts were large at 910 cars, and 410 cars are estimated for to-morrow. Fair and higher temperatures were noted on the weather map for the corn belt, but cooler conditions with showers are indicated except for Illinois, Missouri, Michigan and Indiana.

Oats were rather quiet. At the start the feeling was easy and September declined %c from yesterday's close. The strength in corn and wheat, and better local ouying to cover shorts, and also some buying to cover shorts, and also some buying for New York had a good effect. After the first run of selling offerings decreased and prices advanced %@½c. The close was steady at a gain of ¼@%c for the day.

Provisions continued their gradual every day decline. The presence of ample supplies for the existing demand and the big corn group prospect have removed all specucorn crop prospect have removed all speculative bull feeling. Compared with yesterday's closing prices, pork is 12½c lower, lard is .05c lower and ribs declined .02½ for

September and 11/2 for January. Receipts of hogs for to-day were 13,000. The receipts for to-morrow were estimated as follows: Wheat, 60 cars; corn, 410 cars; oats, 165 cars. Hogs, 17,000 head. Leading futures ranged as follows: Open- High- Low-

Elsewhere.

CHICAGO, Aug. 13 .- Cattle-Only about

5,000 cattle of all kinds were received here to-day, including 3,500 Western rangers and 400 Texans. That left only about 1,000 nado Texans. That left only about 1,000 hatives, but the general demand was light and prices were no better than on yesterday. Buyers filled up pretty extensively yesterday, and this tended to lessen their orders to-day. Common to extra native steers, weighing from 1,000 to 1,650 lbs, were salable at \$3.75\textit{96}, a few being good enough to sell as high as \$5.50, or so poor as to sell much under \$4.50. Big, heavy steers were hard to sell, and lots averaging less than 1,500 lbs sold to the best advan-tage. The stocker and feeder trade was active to the extent of the limited receipts at \$2.50@4, speculators doing a good share of the buying. No change occurred in butcher or canners' stuff, bulls selling at \$1.75@3.50, while cows and heifers went at \$1.25@3.80, few selling above \$3.50. It being "calf" day, the receipts ran up to about 2,190 head, and many of them were choice. Buyers took hold freely, and prices averaged 25c per 100 lbs higher, common to prime calves selling at \$3.75@5.75. Western range cattle were in fairly good demand at a decline of about 10c, steers selling at \$3.5004.75 and cows and heifers at \$2.6004.05 for poor to extra. Texas cattle were un-changed. Some were sold yesterday at \$4.35, their average weight being 1,100 lbs. Hogs—There was another collapse in hogs, prices falling 10@15c per 100 lbs. Less than 17,000 head were offered, including those left over from Monday, but there were too many for the demand, and a fair number will probably be carried over tonight. Neither Chicago packers nor Eastern shippers bought with any degree of freedom, and sales dragged, the bulk of hogs fetching \$4.50@4.75; common to choice heavy hogs sold at \$4.20@4.80; mixed at \$4.40@4.80; light weights at \$4.60@5.15 for poor to choice assorted lots. Packers talk

Sheep-Not more than 12,000 head arrived, compared with 16,815 a week ago, but the prices were 10c per 100 lbs lower as a rule. Inferior to prime natives were in demand at \$1.50@4, with sales chiefly at \$2.60@3.60, and Westerns sold principally at \$3@3.25 fed Westerns being worth \$3.60@3.70. Spring lambs were active at \$4.50@5.50 for good to choice, and at \$3@4.25 for common to fair. EAST BUFFALO, Aug. 13.—Cattle—The offerings to-day were about ten loads, which included ten cars fresh arrivals, the balance of the supply being held-over stock and very late arrivals of yesterday. Prison Labor To Let

Notice is hereby given that on the 3d day of September, 1895, at 10 o'clock a. m., the board of directors of the State's prison at Michigan City, Ind., will let to the highest and best bidder the labor of 250 convicts, or so many as any bidder may desire for a term of not less than five years, with the privilege of renewal, from the 1st day of December, 1895.

All bids must be sealed and filed with the warden of said prison on or before the day specified. The kind of labor proposed must be stated. The bids must be so much for each ablebodied man per day, and must state the number of men desired.

Two hundred of the men to be contracted are experienced in the carding and knitting of woolen goods, and fifty in the facing of woolen mits and making of leather gloves. Successful bidders must file good and sufficient bonds according to law for the faithful performance of such contract. The board expressly reserves the right to reject any and all bids. Buildings that will be ready for the suc-cessful bidder at the time of letting contracts are as follows: One 60x150 feet, three stories. One 40x150 feet, three stories. In addition good discipline is guaranteed. The prison is fifty miles from Chicago and shipping facilities by rail from the prison yard are first class. For further particulars, call on or address, CHARLEY HARLEY, Warden,
